

**To:** All Epic users

**From:** Melissa Pessin, MD PhD.

**Date:** 7/28/2022

**Subject:** Change to Laboratory Test Order Screen in EPIC

---

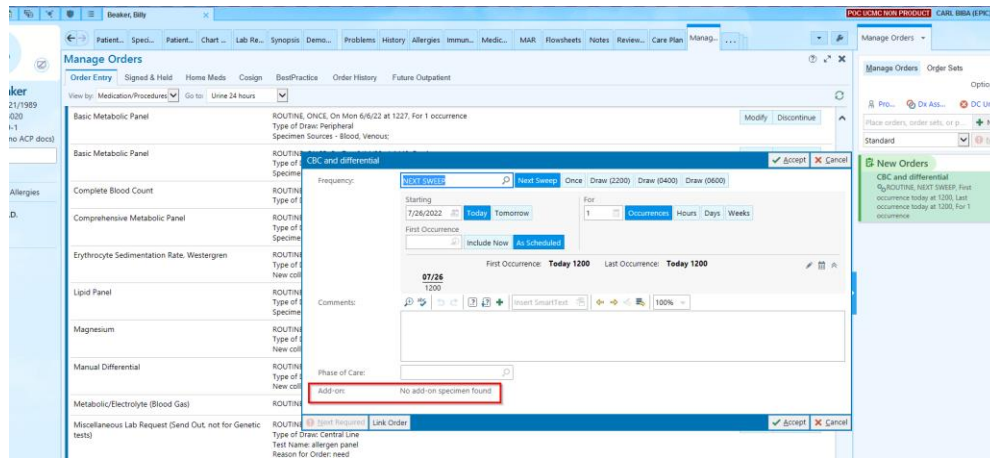

**Effective Date:** 7/28/2022

**Laboratory Section:** Clinical Laboratories

**Summary:**

As part of the Ingalls OneEpic go live, all laboratory orders in EPIC will now show information related to add-on testing that is only accurate for the Ingalls sites that are using EPIC Beaker in their laboratory including Chemistry, Coagulation, Hematology, Immunology, and Microbiology.

An example of this information is shown in the following screenshot in the **red** box.

This information is not accurate for the tests performed at the Hyde Park, Orland Park, Silver Cross, or Cancer Specialist of Indiana laboratories at this time and should be ignored. The current add on process should be followed for tests performed at the non-Ingalls laboratories. See [link](#) for more information regarding this current add-on process.

**Questions:** If there are any questions regarding the change, test requirements or ordering, please contact: *Kara Newton, Director, Clinical Laboratories ([kara.newton@uchospitals.edu](mailto:kara.newton@uchospitals.edu))*, *Zelalem Tadesse, Director, Clinical Laboratories ([zelalem.tadesse@uchospitals.edu](mailto:zelalem.tadesse@uchospitals.edu))*, or *Melissa Pessin, MD, PhD, Medical Director, Clinical Laboratories ([peassinm@bsd.uchicago.edu](mailto:peassinm@bsd.uchicago.edu))*.
