From: KT Jerry Yeo, PhD, DABCC
Medical Director, Clinical Chemistry Laboratories
Professor of Pathology

Subject: Restoration of Hospital Purified (RO) Water and Total Calcium Assay

Effective Date: 6/15/2023

Laboratory Section: Clinical Chemistry

Summary:

On June 13, we notified you that the Clinical Chemistry Laboratories had a disruption of the hospital RO water supply leading to an inability to run total calcium on our Hyde Park Chemistry analyzers.

I am pleased to report that, as of yesterday at around 8.30pm (June 14), we were able to resume testing of total Ca after restoration of the hospital RO system and a related required service of our analyzers.
