
MEMORANDUM

To: All Laboratory Users
From: Department of Laboratory Medicine
Date: 12 June 2025
Re: **Test Discontinuation: Free Testosterone**

Dear Users of Laboratory Medicine,

Please be informed that Laboratory Medicine in National University Hospital will no longer offer Free Testosterone (Radioimmunoassay) with effect from 24 June 2025.

Calculated free testosterone may be used to estimate free testosterone, taking into account the total testosterone, sex hormone binding globulin (SHBG) and albumin concentrations. Alternatively, you may consider the use of a higher-order method, equilibrium dialysis liquid chromatography tandem mass spectrometry, for free testosterone. [TGRP - Overview: Testosterone, Total and Free, Serum](#)

Please contact laboratory staff at 67724346 for further enquiries.

Yours sincerely

A/Prof Sunil Sethi
Head, Clinical Chemistry
Department of Laboratory Medicine
